patch "USB: Serial: cypress\_M8: Enable FRWD Dongle  
hidcom device" added to usb tree

Inbox x

**gregkh@linuxfoundation.org**

Jun 3 (2 days ago)

to me, stable

This is a note to let you know that I've just added the patch titled

USB: Serial: cypress\_M8: Enable FRWD Dongle hidcom device

to my usb git tree which can be found at

git://[git.kernel.org/pub/scm/linux/kernel/git/gregkh/usb.git](https://git.kernel.org/pub/scm/linux/kernel/git/gregkh/usb.git)  
in the usb-linus branch.

The patch will show up in the next release of the linux-next tree  
(usually sometime within the next 24 hours during the week.)

The patch will hopefully also be merged in Linus's tree for the  
next -rc kernel release.
